GMUND | PRESS RELEASE
February 14, 2017

Immerse yourself in the world of “Gmund Color System”

Exclusive workshops in New York, San Francisco and Chicago

The Gmund Color System is the first globally available uncoated paper collection. It offers a wide range of possibilities to mix & match 48 matte, 9 felt finished, 12 metallic and 7 transparent colors.

Be part of a colorful and joyful evening in New York, San Francisco or Chicago – “Gmund and Friends” welcome you to experience a new perspective of creating and designing with colored paper.

Discover the many possibilities of paper applications, and get in close touch with paper expert Kathrin Stuckenberger from Gmund. Learn more about the influence of colors from Mark Smith of Envelopments, pioneers of the mix & match system for creating custom invitations and announcements. You are also invited to meet your local contact person who will be happy to fulfill your Gmund Colors needs – Mr. Jeff Greene from Announcement Converters, Ms. Eva Divjak-Gaylor from Astro Paper & Envelopes and Mr. Larry Chase from LCI Paper Company.

Don't miss the exclusive workshop in New York, San Francisco or Chicago, and sign in. Please register before March 14th at: <http://www.gmund.com/gmundcolorsevent>
We look forward to welcoming you!

About Gmund Paper

Gmund Paper has been a key figure in the paper culture since 1829, specialized in the environmental friendly production of unique communication media on natural paper. From their development and manufacturing base in Gmund am Tegernsee in Germany, the paper experts create tailored solutions that ensure a strong brand presence. Around 75% of the paper production is exported. Gmund Paper is a fourth-generation family business and is headed by Florian Kohler.
